Patient rooms

The patient rooms in Heidelberg University Hospital are without exception modern and pleasant single and double rooms. Individual accommodation requirements (single room) will be considered as far as possible by agreement with the treating department.

In exceptional cases we can arrange to accomodate an escort in the patient room. The costs of this will be included in the total bill.

Diet and menu

Our patients and escorts, who are accommodated in a patient room, have the choice of three menus every day. If your state of health necessitates a special diet or if you have individual needs or customs, we would be pleased to take them into consideration. Please inform the nursing staff of your wishes at the beginning of your treatment.

Internet

Free WLAN/LAN is available in all patient rooms.

Television

Television programs in the patient rooms and lounges are broadcast in the following languages:

- English
- Russian
- Arabic
- French
- Spanish
- Italian
- German

Newspapers

The hospital cafeterias have newspapers in English, Russian, Arabic and German.

Religious Practice

Christian services are held regularly in the chapels attached to the hospital. Ministers are available for discussions, if desired.

A prayer room on the hospital grounds (Head Hospital) is available for Muslim patients.

After treatment

At the end of your treatment the doctor in charge of your case will compile a **detailed medical report** in the German or English language. This will contain information about the treatment received as well as recommendations for further medical care.
