

## **THE HIGHEST LEVEL OF EXPERTISE AND PRECISION IN THE NEURO-CENTER**

Patients with diseases of the brain and nervous system receive a level of medical care at Heidelberg University Hospital that is available at only a few centers in Europe. The neurological and neurosurgical departments offer all the procedures and techniques necessary for a precise diagnosis as well as the entire spectrum of modern treatment methods, such as neuronavigation for precise guidance during brain surgery.

## **REHABILITATION SERVICES**

Nursing staff, physical therapists and, if needed, speech therapists and occupational therapists ? specialized personnel who understand how to care for and restore ill persons, support the treatment. Often, patients continue to be treated in cooperating medical centers specializing in rehabilitation.

### **Selected Areas of Expertise:**

» Movement Disorders (with Brain Stimulation)

» Stroke and Complex Neurological Treatments

» Neuroradiological Diagnosis and Intervention

» Neurosurgical Treatments of Vascular Diseases / Malformations

International Office: Neurological diseases ([www.heidelberg-university-hospital.com](http://www.heidelberg-university-hospital.com))
