

Tumors of the Lung, the Mediastinum, and the Thoracic Wall

Patients with lung tumors and other tumors of the thoracic cavity are treated at the Thoraxklinik, an independent hospital affiliated with Heidelberg University Hospital. The medical specialists at the Thoraxklinik and Heidelberg University Hospital work together closely, treating patients in interdisciplinary cooperation when necessary.

For more information, see the web site of the [Thoraxklinik Heidelberg](http://www.thoraxklinik-heidelberg.de). Please send your treatment inquiries directly to the contact person at the Thoraxklinik, Ms. Johanna Bosse.
