HEIDELBERG welcomes international patients
Welcome to Heidelberg - one of the top destinations for medical care in Germany. You can look forward to innovative, cutting-edge medical care on an international level, expert know-how, and discretion when you travel to Heidelberg. The Heidelberg University Hospital is one of the leading medical centers in Europe in terms of patient care, research, and teaching.

Every year the more than 40 clinics and departments are visited about 850,000 times by patients from Germany and from abroad. The medical faculty has been around since 1386, making it the oldest faculty in Germany - and, as a University of the elite, one of the best. Biomedicine is an important part of the German Universities Excellence Initiative, Heidelberg University being one of nine German universities to meet the criteria for this. Cooperation with prestigious research institutes of the University and the German Cancer Research Center, the Max-Planck Institute for Medical Research, and the European Molecular Biology Laboratory make science on an international level possible. We want to make your stay in Heidelberg as comfortable as possible for you and your family. This brochure provides information about select hotel partners on one hand, and interesting offers such as guided tours to castles, boat rides, or adventure tours on the other. Of course this is just a small sampling of what’s possible. Please call us if you have any questions or requests.

"Dear Guests and all those who are considering visiting us in the near future. Somebody once told me that time is a like predator stalking us for the duration of our lives. I prefer to think of it as a companion on travels, reminding us to enjoy every moment, because this moment is all we have. What we leave behind is not all that important, but what we’ve seen and experienced is what counts. I wish you a nice stay at the Bayrischer Hof and a quick recovery."

The hotel in the heart of Heidelberg combines tradition with modern amenities and is the ideal place for an unforgettable visit to the gorgeous University, which is Germany’s oldest. The hotel is located in the city center, making it the perfect base for visiting Heidelberg and its unique landmarks. The Bayrischer Hof was founded in 1856 and is one of the oldest buildings in the vicinity of the Bismarckplatz. The renovation in 2008 updated the hotel to the newest standards and it now meets all the requirements of a modern hotel. Since April, 2014 we have also been offering eight newly renovated luxury apartments located about five walking minutes from the hotel.
