World-class doctors – your guarantee for cutting-edge medical care

Hundreds of thousands of patients from Germany and all over the world put their trust in Heidelberg University Hospital’s doctors:

World-renowned medical professionals practice medicine at Heidelberg University Hospital, many of whom are among the leading experts in their fields internationally.

All our experts have extensive experience – particularly when it comes to treating rare and severe illnesses.

All our doctors are scientifically active, conducting research to develop new methods and improving existing methods. This ensures the most up-to-date treatments in line with the latest scientific findings.

Doctors from a wide variety of different specialty areas maintain close contacts, conferring with each other as to the best therapy for the individual patient.

Our specialists are well versed with the latest techniques and have the needed expertise to employ the cutting-edge medical technology at Heidelberg University Hospital.

All patients are treated with great kindness; the human factor never takes a backseat to professionalism.
